1 Goods

"**Goods**" means objects of every kind and description including commodities, raw materials, manufactured products and equipment, industrial plant, objects in solid, liquid or gaseous form, electricity, as well as services incidental to the supply of the goods such as freight and insurance;

2 Works

works means any work associated with the construction, reconstruction, demolition, repair or renovation of a building, structure or works, such as site preparation, excavation, erection, building, installation of equipment or materials, decoration and finishing, as well as services incidental to construction such as drilling, mapping, satellite photography, seismic investigations and similar services.

3 Consultancy Services

"**consultancy services**" means services of an intellectual and advisory nature, not incidental to the supply of goods or to the execution of works, such as design, supervision, training, analysis, auditing, software development, and similar services;

4 Other Services

other services means any services other than consultancy services or services incidental to the supply of goods or the execution of works;
